

School Improvement Plan Parent Questionnaire

How well has the school communicated to you regarding standardized testing and your student? Do you know what the tests mean? How they are used? Why they are given?

To what extent are parents and community members familiar with what students are expected to know, do, and demonstrate, and what they can do to support their child's achievement?

To what extent are resources, tools, or training provided to help parents support their child's learning?

What critical needs do you see in the area of parent and community involvement that should be articulated and planned for in the school improvement plan? These needs should help us, as a school community, meet the needs of *ALL* students.
