

The District's accounting system will be in conformance with the New Hampshire Financial Accounting Handbook published by the State Department of Education. An adequate system of encumbrance accounting will be maintained.

The following purposes must be satisfied by the accounting system:

1. Administrative Control: The financial records must be adequate to guide the making or deferring of purchases, the expanding or curtailing of programs, and the controlling of expenses. Current data should be immediately available and in such form that periodic summaries may be readily made from the data.
2. Budget Preparation: The financial records must be adequate to serve as a guide to budget estimates of subsequent years, and to hold expenditures to the amounts appropriated. Accounts are to be kept for each item for which separate budget estimates must be made. An adequate code of expenditure accounts will be used.
3. Accounting for Stewardship: The financial records of the district must be adequate to show that those in charge have handled funds within the framework of law and in accordance with Board policy.

The District's financial records will provide the following information:

1. For each account in the District's budget: the appropriation, appropriation transfers, expenditures, encumbrances, and unencumbered balance.
2. For each purchase order: the name of vendor, description of the item involved, the amounts, the call for bids if required, and an abstract of the bids received. Purchase orders created by computer software will be secured through password restrictions.
3. For each purchase: the purchase order information above, plus the record of receipt and condition of goods, the invoice and the record of payment.
4. For each income account: the budget estimate, the estimates as revised periodically, the receipts to date, and the balance anticipated.
5. Offsetting revenues received under an abatement will be debited to the appropriate previously expended account.

The Board shall receive financial reports and statements showing the financial condition of the School District. These statements/reports shall contain estimates which shall project cost for the full year including actual encumbered expenses. The School Board may ask for a statement or report at any time.
